SERBIA SEEDLINGS

**Radnja za gajenje lozних sadnica i trgovinu
"AGRO KALEM-PLOD"**

"Agro Kalem Plod" je rasadnik iz Srbije zasnovan na dugogodišnjoj porodičnoj tradiciji, specijalizovan u uzgajanju, kalemljenju i prodaji voćnih sadnica, lozних kalemova i sadnica ruža. Proizvodnja sadnog materijala je naša osnovna delatnost koju karakteriše implementacija savremene tehnologije. Sinergija tradicije, znanja i posvećenosti je rezultirala da postanemo vodeći rasadnik u Srbiji poznat po visokom kvalitetu sadnog materijala i vrhunskoj usluzi. Rasadnik ima sopštvene bazne matičnjake podloga i kalem pupoljaka tako da su sve naše sadnice sertifikovane kategorije tj. bezvirusne. Pozicioniran u dolini reke Zapadne Morave sa pogodnim klimatskim uslovima na plodnom zemljištu i sa primenom naprednih tehnologija u proizvodnji dobijamo sadnice vrhunskog kvaliteta što je i glavni ključ našeg uspeha i osnov poverenja naših mnogobrojnih klijenata. Proizvodni program sadnog materijala čine: sadnice voća, sadnica vinove loze, sadnice ruža, sadnice kupina, malina, ribizla, ogrozda, borovnice i aronije, kao i vegetativne podloge jabuke i dunje i kalem pupoljaka svih voćnih vrsta sertifikovane kategorije.

**Питомник для выращивания саженцев и торговли
"АГРО САЖЕНЕЦ -ПЛОДЫ"**

"Агро саженец -плоды" является питомником обоснованным на многолетней семейной традиции, специализированным в выращивании, прививках и продаже фруктовых саженцев, винограда и саженцев роз. Производство саженцев - наша основная деятельность, характеризующаяся применением современной технологии. Связь традиции, знания и посвящённости, результат которой дал возможность стать ведущим питомником в Сербии, известным по своему высокому качеству и превосходной услуге. Питомник располагает собственным базовым фундаментом и прививками бутонов, так что у всех наших саженцев есть сертификаты, те. являются безвирусными. Находится наш питомник в долине реки Западной Моравы, где выгодные климатические условия, на плодотворной земле, где мы, с применением современных процессов работы, производим саженцы высокого качества, что является ключем нашего успеха и основу доверия наших многолетних клиентов. Производство саженцев сочиняют: саженцы фруктов, саженцы винограда, роз, ежевик, малин, крыжовника, черники и аронии, как и вегетативные подвои для яблоки и айбы и прививки почек всех фруктовых сорт со сертификатом.

**The Nursery Garden Company for Production and Trade of Grape Seedlings
"AGRO KALEM – PLOD"**

"Agro Kalem Plod" is a nursery garden based on a long family tradition. It specializes in growing, grafting and selling fruit, grape and rose seedlings. Production of seedlings is our primary activity and its main characteristic is implementation of high technology in this area. Synergy of tradition, knowledge and devotion has resulted in our newly established leadership position recognizable for its high quality and top-rated services. The nursery has its own base fertile ground and bud seedlings which makes all our seedlings certified and virus-free. The nursery is situated in the valley of the river Zapadna Morava where suitable climate conditions, fertile ground and high technology are combined in the production of top quality seedlings, which is our key to success and the base of trust of our regular customers. The nursery garden deals with the production of: fruit tree seedlings, grape seedlings, rose seedlings, blackberry seedling, raspberry seedlings, gooseberry seedlings, blueberry seedlings and aronia. We also offer vegetative base of apple and quince, spool buds of all certified items.
